

## Selecting the right Paper Roll Clamp is Critical

Paper rolls are heavy, prone to damage, difficult to handle and have considerable unit value. All paper rolls are not equal, there is a need to select the attachment to suit the properties of the roll and the handling application.

To select the right clamp to handle your rolls we require the following information

**Roll Weight**

Minimum Roll Weight:  Kg

Maximum Roll Weight:  Kg

Number of rolls to be handled at a time:

**Roll Diameter**

Min Roll Diameter:  mm

Max Roll Diameter:  mm

**Wrapper Type**

**Paper Type**

**Company Name:**

**Contact Person:**

**Signature:**
